

Transition in Action (Level 3)

West Lothian College

Content

Assisted programmes courses support students with additional support needs to reach their goals; whether this is preparation for volunteering, employment or further study. For school leavers, assisted programmes courses can provide the next step from school to becoming more independent, through a less formal environment.

One exciting part of the course is The Welcome Market, a student-run weekly pop-up shop selling discounted goods to the college community, where you'll gain key skills in customer service, numeracy and communication with customers across the college. It's a great way to practice real-world skills in a supportive environment.

Start Date

August
