

## Routes to IT

Ayrshire College

### Venues

Ayr Campus

### Content

This course is all about developing your skills so you can successfully do a job you're interested in. It focuses on IT and business, and you'll spend quite a bit of time in the IT department. You'll take part in lots of projects in areas which are meaningful and relevant to you. For example, it might be producing your own magazine, setting up your own travel agency or running a breakfast club at college – you choose what you want to do.
