

3D Design: Product Design (Year 2 Direct Entry)

City of Glasgow College

Venues

City Campus

Content

Looking to become a qualified Product Designer? This is a challenging course, where you take part in an exciting and comprehensive programme of product design. You'll learn about new materials, CAD and how to use manufacturing processes, as well as developing 3D prototypes.

You'll work through all the stages of the design process through a number of projects, producing presentation boards for clients to review.

The course gives you the skills required for employment in this high demand industry sector (please see further information in the 'after the course' section) and will be delivered by our professional teaching staff with significant product design experience.
