

Animal Care

Dundee and Angus College

Venues

Arbroath Campus

Content

This course establishes the principles of a wide range of animal care subjects, including healthcare and husbandry. The course develops knowledge in specialist areas such as anatomy, small animal feeding, breeding, parasitology and exotic pets, as well as safe working practices.

It is delivered with a balance of theoretical classes and practical skills such as health checks and records, handling, husbandry, feeding and accommodation maintenance.

Start Date

September

Qualification

NC
