Content

The European Computer Driving License (ECDL) is a Europe-wide qualification which enables individuals to demonstrate their competence in computer skills. This is a highly sought-after qualification by most businesses and enhances any current employment. This formal qualification will provide you with a better understanding of computer programs you may have to use at work.

This course is designed to give you in-depth knowledge and understanding of computer usage and Microsoft Office applications. You will look at legal issues, health and safety and good practice associated with computing.
