

Performing Engineering Operations (Manufacture and Maintenance) EMTA

Edinburgh College

Venues

Midlothian Campus

Content

This course will give you the broad practical skills you'll need in engineering manufacture and maintenance. You'll take part in a lot of hands-on skills training including machining engineering materials fitting and much more. The course will prepare you for higher technical or management posts and if you're bursary-funded you may gain employment as a Modern Apprentice with local engineering companies.

The broad practical skills needed in engineering manufacture and maintenance; Hands-on skills training including machining engineering materials and fitting.
