

Acoustics and Music Technology

University of Edinburgh

Venues

Central Campus

Content

This programme offers a unique opportunity to study sound and music technologies using science and engineering methodologies.

Acoustics and music technology emphasises excellence in subjects including: physics, computer programming, and audio signal processing.

These are not only the basis of our field but are also useful in many other disciplines.

You will combine this learning with studies in: sound recording, audio machine learning, architectural acoustics, creative music technology, sound design, further options in music and beyond.

Start Date

September

Qualification

Degree

Study Method

Full time

Award Title

BSc Hons

UCAS Code

W380

Course Length

4 years

Faculty

College of Arts, Humanities and Social Sciences

Department

Edinburgh College of Art

Entry Requirements

2027 entry requirements
