

## Anatomy and Development

University of Edinburgh

### Venues

King's Buildings Campus

### Content

The Biomedical Sciences programmes share a common structure in Years 1 and 2. These foundation years give you a strong grounding in the knowledge, skills, and scientific understanding needed across all specialist areas.

During this time, you'll also be introduced to anatomy and development through compulsory courses.

From Year 3 onwards, you'll focus more deeply on your chosen subject area. You'll also have the flexibility to change your specialism at the end of Years 2 and 3, allowing you to tailor your degree as your interests develop.

The Anatomy and Development degree programme explores how the human body is built, how it grows and mechanisms of repair.

This knowledge is increasingly important in the study of disease and in emerging fields such as tissue engineering and regenerative medicine.

You will study the structure and organisation of tissues and organs alongside the biological processes that shape them, from the earliest stages of development to adulthood.

### Start Date

September

### Qualification

Degree

### Study Method

Full time

### Award Title

BSc Hons

### UCAS Code

C183

### Course Length

4 years

## Faculty

College of Medicine and Veterinary Medicine

## Department

Edinburgh Medical School

## Entry Requirements

2027 entry requirements

Standard entry:

4 Highers at AABB (by end of S5 preferred) including Biology and Chemistry. Maths or Physics recommended plus Maths at B and English at National 5. Advanced Higher Biology and Chemistry recommended.

For second year entry you would require the above plus Advanced Higher Biology and Chemistry at AB or BA.

Widening access entry:

4 Highers at ABBB (two sittings) including Biology and Chemistry. Maths or Physics recommended plus Maths at B and English at National 5. Advanced Higher Biology and Chemistry recommended. Highers at BBB must be achieved in one sitting.

## SCQF Level

10
