Interior and Environmental Design (2nd year entry)

University of Dundee

Venues

City Campus

Content

You will learn how to interpret, design and adapt a range of new and existing environments by applying research methods and creative strategies for a range of spaces, objects and architectural scenarios that enhance the well-being of occupants and responds to client's needs.

Working at varying scales, sites, and contexts, we encourage you to develop a creative and intellectual position. You will explore spatial theories, societal contexts, and develop skills in space-planning, colour, materials, structure, lighting, and user experiences.

Our teaching team are highly experienced in interior architectural practice, research, user and community engagement methods, architectural digital modelling, and furniture. You will benefit international collaborations, engage in national and international competitions, participate in optional (self-funded) study-trips, and in national graduate events. There are exciting opportunities to study at other design schools under Erasmus and/or Study Abroad.

Start Date

September

Qualification

Degree

Study Method

Full time

Award Title

BDes Hons
