

Digital Interaction Design

University of Dundee

Venues

City Campus

Content

Digital Interaction Design is an established and rapidly growing profession. It blends product design, graphic design, computing, web and app development, together with user research. World-leading companies such as Facebook, the BBC, Tesco Bank, and IDEO employ interaction designers to make their products, services, and systems more effective and enjoyable.

You'll develop the skills to identify and respond to people's needs, with a focus on user experience. You do not need to have a strong computing background, as this course will teach you all you need to know.

Start Date

September

Qualification

Degree

Study Method

Full time
