Virtual Learning Environment (VLE)

## Content

The BSc Hons Integrative Healthcare is the only course of its kind in Scotland and has been developed, in consultation with industry, to closely reflect the changing requirements of the healthcare sector in the UK and abroad.

Healthcare practitioners face challenges that require innovative and new approaches to delivering healthcare needs for 21st century clients and increasingly, additional or alternative methods of care such as complementary therapies are being considered.

You will develop an in-depth knowledge and understanding of complementary therapies, research and healthcare while enhancing your analytical, critical thinking and problem-solving skills. A critical awareness of current issues and developments in complementary therapies will also form part of the programme. Throughout the degree there is an emphasis on the wide range of diverse and complex perspectives of health, particularly social policy, ethics, the law, politics, physiology and sociology.
