International Business (5 years)

University of Aberdeen

Venues

Old Aberdeen Campus

Content

This programme is designed to equip you to be successful in International Business, with an exceptional knowledge and understanding of both its operations and its economic, political and social context. It will deliver a learning experience that provides students with confidence and the trajectory to add value to employers immediately on graduating.

The University of Aberdeen draws on both ancient heritage and globally-recognised excellence in research and teaching to challenge students academically and to connect them with the world of practice. There is an option to study a modern language throughout the programme.

The programmes provide a broadly-based education in International Business through either a four year (MA) or a five year (MBus) programme. Both programmes provide specialist courses in International Business and also enable students to specialise in at least one of economics, real estate, accounting, finance and business management. Study abroad and internship options are integrated with flexible language learning to accommodate individual study needs, skills and aspirations. The programmes are designed to develop the international business leaders of the future.
