

# Construction Management

Glasgow Caledonian University

## Content

Construction Managers, based on site and in the office, work with a wide range of people, from architects to construction workers.

This programme covers a wide variety of technical, financial and planning aspects in theory and practice, using both traditional and online teaching methods. Most Construction Management graduates in Scotland have trained at GCU.

Industry experts provide guest lectures throughout the programme and as part of the programmes commitment to enhance the personal, professional and employability skills of our students, in Year 3 there are opportunities to spend six months on a work placement. There are also opportunities to study abroad, in Europe, Australia and the USA.

The programme is fully accredited by the Chartered Institute of Building (CIOB) and the Royal Institution of Chartered Surveyors (RICS).
