

Studio Sound Production

Forth Valley College

Venues

Stirling Campus

Content

Interested in getting the most out of your recording - perhaps as part of a band, your own solo work, for home recording or even for specialist sound design? This introductory course will give you a hands-on starter on the workings of a modern recording studio. Working with a specialist member of staff to identify the skills you most want to pick up, you will be introduced to planning, setting-up, recording and editing within a studio environment, as well as getting the chance to try your hand at recording some of your work.

Course content includes:

Introduction on the workings of a modern recording studio; Working with a specialist member of staff to identify the skills you most want to pick up; Introduction to planning, setting-up, recording and editing within a studio environment; The chance to try your hand at recording some of your work.
