

Aircraft Engineering

University of the West of Scotland

Venues

Paisley Campus

Content

The programme has been designed in partnership with the aerospace industry, and will provide you with the skills required to work effectively in the aircraft design, manufacturing, aerodynamic and structural design and repair and overhaul sectors.

Aircraft engineers are responsible for the safety of thousands of air passengers every year. They play a critical role in the design and certification of an airworthy aircraft in accordance with aviation standards.

Designed in partnership with aerospace industry employers, this course includes visits to organisations such as Spirit AeroSystems and British Airways. A number of final year projects are also undertaken in collaboration with industry.

The accredited MEng (Hons) Aircraft Engineering fully meets the exemplifying academic benchmark requirements, for registration as a Chartered Engineer (CEng).

Start Date

September

Qualification

Degree

Study Method

Full time

Award Title

MEng

UCAS Code

H411

Course Length

5 years

Faculty

School of Computing, Engineering and Physical Sciences

Department

Engineering

Entry Requirements

2025 entry requirements

Standard entry:

4 Highers at ABBB including Maths and Physics.

SCQF Level

11
