

# **Cyber Security**

University of the West of Scotland

#### **Venues**

Lanarkshire Campus

#### **Content**

MEng (Hons) Cyber Security will teach you how to protect and secure modern data infrastructure. The course will allow you to develop many industry relevant skills based around the ethical hacking framework, underpinned by a thorough understanding of both networking (CCNA) and programming theory.

As the country's security and prosperity rests on digital foundations it has never been more important to be protected from those who seek to exploit weaknesses and launch attacks.

The course has been created to meet a growing need, as identified by the Scottish and UK Governments, for individuals who possess a skillset to meet the challenges posed by the constantly evolving computer systems.

Graduates of the degree will be looking to progress towards roles such as Chief Security Engineer (CSE) or Chief Security Officer (CSO), in sectors such as healthcare, banking and finance and various security related public sector organisations.

#### **Start Date**

September

## Qualification

Degree

## **Study Method**

Full time

#### **Award Title**

**MEng** 

## **UCAS Code**

1200

## **Course Length**

5 years

#### **Faculty**

School of Computing, Engineering and Physical Sciences

## **Department**

Computing

## **Entry Requirements**

2026 entry requirements

4 Highers at ABBB including Maths or Applications of Maths and Physics plus English at National 5 at B.

## **SCQF Level**

11
