

Artificial Intelligence (2 years)

Heriot-Watt University

Venues

Edinburgh Campus

Content

MSc Artificial Intelligence (2 years) is a newly designed two-year conversion programme. It has been created to provide the perfect stepping stone for students aiming for a career in artificial intelligence, who may not be coming directly from a computing background.

This two year programme offers an opportunity for students looking to transition to a new career path in Artificial Intelligence (AI), yet coming from a background outside Computing. Whether your experience lies in Psychology, Linguistics, Science, Technology or the Arts this pathway programme is a rare opportunity to become well-versed in the advanced, challenging field of AI.

The programme aims to provide intensive and high-quality preparatory graduate and postgraduate education in Artificial Intelligence, all within just two years. The collective programme will be taught by a variety of traditional and innovative means, making use of applied topical material relevant to research and industry. This will create a supply of robustly prepared postgraduates with skills relevant to research and industrial applications of AI, in the UK and internationally.

Start Date

September, January

Qualification

Postgraduate Master's

Study Method

Full time

Award Title

MSc

Course Length

24 months

Faculty

School of Mathematical and Computer Sciences

Department

Computer Science

Entry Requirements

Admission requires a good honours degree at UK 2:2 level (minimum), with evidence of numeracy and familiarity with a programming language.

This programme is designed for students with a non-Computer Science background who would benefit from a foundational year to help them to make a successful transition into AI, and therefore students will only be recruited into Year 1 of this programme.

There is no direct entry into Year 2 of this programme.

SCQF Level

11
