

Pharmaceutical Science

Robert Gordon University

Content

This one-year Master's course is designed to provide you with an in-depth understanding of Pharmaceutical Science. Jobs in this sector tend to require a broad skill set of chemistry, drug delivery and biomedical science.

The course covers an array of subjects essential for a career in pharmaceutical science. In Semester 1 you will study Advanced Pharmaceutical Analysis and Quality Control, Drug Dosage Form & Design and Pharmacology.

In semester 2 you will study Advances in Pharmaceutical Sciences, Drug Discovery & Design and preparatory work for your project. In semester 3 you will undertake a 12 week research project.

You can exit after stage 1 with PgCert Pharmaceutical Science.

You can exit after stage 2 with PgDip Pharmaceutical Science.

Start Date

September

Qualification

Postgraduate Master's

Study Method

Full time

Award Title

MSc

UCAS Code

B230

Course Length

12 months

Department

School of Pharmacy and Life Sciences

Entry Requirements

Applicants normally hold a 2:2 undergraduate honours degree in a relevant science subject area.
Applicants with a lower degree classification and / or relevant work experience will be considered on a case by case basis.

SCQF Level

11
