

Accounting and Finance - Professional Top-Up

Robert Gordon University

Content

This Accounting and Finance course is an online master's top up course for professionally qualified accountants to enhance your professional qualification to a globally recognised MSc degree and further your career.

The course consists of one module - Capstone - which will provide you with an opportunity to integrate master's level knowledge and skills by independently working on a dissertation or business consultancy project within a degree related discipline. This course is ideal for individuals who hold a Professional Accounting qualification from a recognised Accounting Body such as ACCA, CIMA, ICAEW, ICAS or other member of the GAA. At Aberdeen Business School, we are in the business of changing your tomorrow.
