Content

The MSc Nursing course is designed to provide a progressive pathway of masters level study for all registered nurses working in all fields of practice.

From a national and international perspective there is a recognised shift towards delivering safe, person-centred and effective care. Nurses are central to achieving this ambition and this course will enable you to advance your knowledge and experience as a nurse by specifically examining contemporary issues such as: quality improvement, advancing roles, and leadership.

This ensures you can make a significant contribution to improving practice and providing quality care.

You can exit after 60 credits with PgCert Nursing.

You can exit after 120 credits with PgDip Nursing.
