# Computing (Level 6)

Borders College

## Venues

Galashiels/Scottish Borders Campus

## Content

Today's world revolves around the use of digital technologies and requires people with a mix of computing, technical, creative, and people skills.

This course covers a wide range of topics, including hardware and systems, data security, applications development and coding with different languages.

In this course, you will undertake a wide range of different computing units to develop a skill base to provide opportunities to progress to higher levels of study or into employment.
