Light Vehicle Maintenance and Repair Principles (IMI) at SCQF Level 5

Dumfries and Galloway College

Venues

Dumfries Campus

Content

This full time diploma course has been developed to provide a progression from the IMI Certificate in Vehicle Maintenance award.

The course is structured around a selection of both knowledge and skills based practical motor vehicle engineering units together with a core skills programme involving communications, numeracy and information technology.

The course involves the study of light vehicle construction and routine maintenance, operating principles of light vehicle engines, tyres, brakes, steering and suspension systems, transmission systems and electrical and electronic systems within structured practical workshop lessons and classroom theory.
