Web Development (in conjunction with Edinburgh Napier University) (Years 1 and 2 only)

Edinburgh College

Venues

Milton Road Campus

Content

This course aims to embed the skills and knowledge required to become a full stack web developer; ready to work in web development and wider digital technology sector. You will be taught by industry-experienced College lecturers and learn a diverse range of skills and knowledge in; Hypertext Mark-up Language (HTML), Cascading Style Sheets (CSS), JavaScript, App Development (using Frameworks such as React), Structured Query Language (SQL), Content Management Systems (CMS), Web Graphics, User Experience (UX) and User Interface (UI) Design, PHP (Hypertext Pre-processor), Search Engine Optimisation (SEO) principles and Digital and Social Media Marketing.

This course offers an up-to-date qualification that reflects recent developments within the web design and development sector. This is a hands-on and practical course that will enhance your employability skills. The Scottish Technology Industry Survey indicated that web development is one of the most in-demand digital skills. The survey identified that 34% of the U.K. digital sector was located in Edinburgh and the Lothians, the most active tech sector outside of London. Edinburgh College has strong industry connections with Edinburgh-based digital companies. Many of our students have progressed towards a successful career within the digital sector.

This course will ensure you are well prepared for employment, self-employment or university courses at the degree level.
