Software Development and Web (NPA)

Edinburgh College

Venues

Milton Road Campus
Sighthill Campus

Content

Discover the world of software development as you are introduced to core industry concepts and skills in web development and digital media. This course is designed to serve as a progression towards further study in a specialist web development course. Upon completion, you will gain an up-to-date award that reflects recent developments within the job market. You will explore practical and hands-on subjects taught at Edinburgh College's state-of-the-art computer labs.

You will be taught by industry-experienced College lecturers and learn a diverse range of knowledge in computer programming for apps, web development, HTML, CSS, and media production, including graphics and video. Each subject area you cover is tailored towards jobs available in the industry to make sure you get the best education to progress towards a successful career.
