Computing (Level 6)

Glasgow Kelvin College

Venues

East End Campus

Content

This one-year, full-time NQ Computing (Level 6) course builds on your existing digital knowledge and prepares you for progression into higher-level study or employment within the technology sector.

You'll explore key areas such as Networking, Cyber Security, Software Development, and Hardware Installation, all while gaining valuable hands-on experience through the CISCO Networking Academy.

This course will develop your skills in the use of computer applications, as well as introducing you to new areas such as:

Networking Technologies; Installing and Maintaining Hardware; Computer and Cyber Security; Software Development; Group based project learning.

This course includes a range of National Progression Awards (NPAs) as well as access to the CISCO Networking Academy.
