

Mechanical Engineering

North Highland College UHI

Venues

Virtual Learning Environment (VLE)

Content

Are you interested in developing your mechanical engineering knowledge and skills? If so, this new MSc Mechanical Engineering will help you progress to the next level of engineering education and help towards attainment of professional registration as a Chartered Engineer: the course is designed to fulfil the further learning component of CEng professional registration.

The course will develop your understanding of the roles of research, design, analysis and optimisation in advanced engineering careers. You will gain the knowledge and understanding to apply existing and emerging technology and gain the appropriate theoretical and practical methods to design, develop, manufacture, construct, commission, operate and maintain engineering products, processes, systems and services.

You can exit after Stage 1 with PgCert Mechanical Engineering

You can exit after Stage 2 with PgDip Mechanical Engineering

Start Date

September

Qualification

Postgraduate Master's

Study Method

Distance and Flexible learning
Part time (day)

Award Title

MSc

Course Length

3 years

Department

Energy, Engineering and Construction

Entry Requirements

BEng Hons in Engineering at 2.2 or above. Recognition of prior experiential learning (RPEL) to the appropriate degree level will also be considered.

SCQF Level

11
