Data Analysis

Open University in Scotland

Content

Discover how to turn data into insight with this diploma in data analysis. You'll learn to explore and interpret complex datasets, applying mathematics, statistics, and computing to solve practical problems. Alongside technical expertise, you'll develop analytical thinking, problem-solving, and communication skills that are in high demand across business, research, and technology sectors. This qualification provides a strong foundation for further study or careers in data science, analytics, or any field where understanding data drives success.

Start Date

October, February, April

Qualification

DipHE

Study Method

Online learning

Course Length

Flexible

Faculty

General

Department

Mathematics and Statistics

Entry Requirements

No formal entry requirements. Computer and internet access required.

SCQF Level

8
