

Data Analysis

Open University in Scotland

Content

Computing and data analysis play an important role in almost all private and public sector employment. The need to understand how to use IT and data to inform business decisions has never been more important. This qualification introduces you to some basic skills in exploring and analysing data sets and solving practical problems using mathematics, statistics and computing. It forms a foundation for further study or employment in the fields of mathematics, statistics, computing or data science.

Start Date

October, February

Qualification

CertHE

Study Method

Distance and Flexible learning

Course Length

Flexible

Faculty

General

Department

Mathematics and Statistics

Entry Requirements

There are no formal entry requirements. Computer and internet access required.

SCQF Level

7

Address

Drumsheugh Gardens
Edinburgh
EH3 7QJ
