Computer Games Design (Level 6)

North East Scotland College

Venues

Aberdeen City Campus
Fraserburgh Campus

Content

This course focuses on the technical and creative skills desired by employers, in the computer games industry and in the wider creative digital media and software development sectors. Students will work together to effectively contribute to an Esports organisation, content creation as well as organising an Esports tournament. The award includes the softer skills regarded as important in the computer games industry including communication, team working and an understanding of the role of enterprise.

You will be:
learning about computer games; participating in the growing industry of Esports; developing media assets (audio, video, photographs, 2D and 3D images); investigating gameplay; learning about Games design and development.

Start Date

August
