

# Computer Games Development

North East Scotland College

## Venues

Aberdeen City Campus

## Content

The award encompasses some of the softer skills regarded as important in the computer games industry including communication, team working and an understanding of the role of enterprise.

What you will experience

You will be learning about games — what makes them entertaining and challenging and brings us back for more. The course includes developing the media assets (audio, video, photographs, 2D and 3D images), investigating gameplay, games design and development using different engines.

## Start Date

August

## Qualification

NC

## Study Method

Full time

## Course Length

1 year
