# Zoology

University of Glasgow

## Venues

Gilmorehill Campus

## Content

Year 1
You will be given a general introduction to all aspects of modern biology and encouraged to acquire general scientific skills.

Year 2
In semester 1, you will develop your knowledge of fundamental aspects of biology. In semester 2, you will be introduced to specialist subject areas according to your interests (animal biology; biomolecular sciences; human biology; infection biology).

You will also be able to study other subjects outside biology.

You will also study other subjects in years 1 and 2: see Flexible degrees.

Years 3, 4 and 5
If you progress to Honours (years 3 and 4) fieldwork becomes an important component of your study mix. Specific topics you may study include invertebrate and vertebrate biology; ecology; molecular ecology; animal physiology; parasite biology; and marine biology. There are also courses on experimental design, data collection and analysis.

A major component of your final year is an independent research project. This project will give you the chance to research something new, and the results sometimes contribute to scientific publications.

## Start Date

September

## Qualification

Degree

## Study Method

Full time

## Award Title

BSc Hons

## UCAS Code

C300

## Course Length

4 years

## Faculty

College of Medical, Veterinary and Life Sciences

## Department

School of Biodiversity, One Health and Veterinary Medicine

## Entry Requirements

2027 entry requirements
Standard entry: 5 Highers at AAAAA (by end S6 with min ABBB after S5) including Biology or Chemistry (1 at A).

Entry to year 2 may be possible with 3 Advanced Highers at AAA including Biology and Chemistry plus Highers at ABBB.

Widening access entry: 4 Highers at AABB/BBBB (by end S6) including Biology or Chemistry. Completion of pre-entry programme is necessary.

## SCQF Level

10
