Content

In this course, you'll develop the practical and critical skills needed for a practising photographer. Guest lectures and workshop sessions are an important element in the course with opportunities for business, entrepreneurship and enterprise activities.

A self-directed approach to your studies will allow you to tailor your portfolio towards your own photographic interests. During the fourth year of this course, you'll focus on and develop your skills and knowledge towards your own photographic goals.

Over 2 years, you'll study both practical photography and critical thinking. Subjects studied will include;

Research projects; Creative photography projects; and self promotion.
