Content

This course looks at the macroeconomic challenges of national, regional, and global economies together with the microeconomic behaviour of people and businesses. An economics degree is an excellent foundation for your career as an economist but also offers scope to pursue a diverse range of high-earning opportunities.

Economists examine how societies attempt to make the best use of their scarce resources, so that they can advise governments, individuals, and companies on how to improve decisions and outcomes.

Traditionally economists advise on investment, inflation, interest rates, and production. Increasingly however they also take a wider focus with many economists examining climate change, inequality, and improving healthcare.

Start Date

September

Qualification

Degree

Study Method

Full time

Award Title

MA Hons

UCAS Code

L100

Course Length

4 years

Faculty

School of Business

Department

Economics

Entry Requirements

2027 entry requirements:
4 Highers at BBBC (BCCC for widening access entry).

SCQF Level

10
