

International Business and Environmental Sustainability

University of Dundee

Venues

City Campus

Content

By studying international business you will understand how this has come about, and what it means for today's business world.

This degree has economics at its core, covering micro and macroeconomics, but it is much broader than a standalone economics degree. It analyses the major external factors effecting global business, globalisation and applied policy.

Understanding the environment has never been more important. Our modern world uses a lot of energy, generates waste and pollution, degrades our environment, reduces biodiversity, and affects our health and welfare.

Environmental sustainability examines the interaction between people and their surroundings. You'll learn about the use of natural resources and how we can attain more sustainable lifestyles.

Start Date

September

Qualification

Degree

Study Method

Full time

Award Title

MA Hons

UCAS Code

NF17

Course Length

4 years

Faculty

School of Business

Department

Economics

Entry Requirements

2025 entry requirements:

4 Highers at AABB (BBBC for widening access entry).

Advanced entry to 2nd year available with Advanced Highers at AB plus Highers at BB.
