

Accountancy

University of Dundee

Venues

City Campus

Content

Level 1: These modules give you an insight into the business world in which accounting operates. Core skills are developed to equip your interaction with commercial enterprises and society beyond business.

Level 2: The concepts of earlier modules will be more fully developed. At this stage you'll be encouraged to do your own critical thinking, essential in gaining a good Honours degree classification. This is also the year in which you'll have the opportunity of travelling overseas to study with one of our partner institutions.

Level 3: Level three comprises the junior Honours subjects. In the first three years of the BAcc degree all students undertake the same modules. Those who have elected to study a language will begin these studies in this year.

Level 4: At this stage you can choose from a range of senior Honours modules. By now you'll be able to recognise your strengths and tailor your final year to best suit your specific interests in line with your career ambitions.

Start Date

September

Qualification

Degree

Study Method

Full time

Award Title

BAcc Hons
