

Pharmaceutical Science and Analytical Science

Edinburgh Napier University

Venues

Sighthill Campus

Content

This programme provides the opportunity to acquire versatile skills in the theoretical understanding, practical execution and critical evaluation of Pharmaceutical Science principles to underpin your chosen professional careers. In addition, a specific aim is to enhance your theoretical understanding and practical application of analytical science in pharmaceutical disciplines.

You'll acquire broad knowledge in contemporary pharmaceuticals and pharmacology and gain an in-depth critical understanding of current research in biotechnology and pharmaceutical science.
