

# Advanced Structural Engineering

Heriot-Watt University

## Venues

Edinburgh Campus

## Content

Our Structural Engineering course is aimed at graduates and practising engineers. It's designed to help improve your knowledge of structural and foundation engineering. The degree's been developed together with a wide range of employers in the sector. So there's a strong relationship between the course and the engineering industry. The course also builds directly on staff research activities, which include experimental, numerical and theoretical work. You'll have access to excellent practical and advanced computer and networking facilities too.

You can exit at the end of Stage 2 with PgDip Advanced Structural Engineering.

## Start Date

September, January

## Qualification

Postgraduate Master's

## Study Method

Distance and Flexible learning  
Part time (day)

## Award Title

MSc

## Course Length

Part time (2 years) Inline (3-8 years)

## Faculty

School of Energy, Geoscience, Infrastructure and Society

## Department

Institute for Infrastructure and Environment

## Entry Requirements

Masters (MSc) level entry applicants must have one of the following:

Minimum of 2:2 honours degree or equivalent academic qualification in a related subject area; For postgraduate conversion courses, non-related degrees will be considered; Corporate (or chartered) membership of relevant professional institutions will also be considered

PG Diploma level entry applicants must have an ordinary degree in a related subject area and relevant post qualification industry experience.

## SCQF Level

11
