

Biomedical and Molecular Sciences

University of Dundee

Venues

City Campus

Content

Biomedical and Molecular Sciences are fast moving and cutting-edge fields unravelling the complexities of biological systems and yielding discoveries of high value to society, including new options to treat or cure diseases. This course will prepare you for a meaningful career directed towards solving real-world problems associated with human health. The focus is on areas of major current interest in the biopharmaceutical sector, to arm students with the particular knowledge and skills that biotech and pharmaceutical companies are looking for.

Start Date

September

Qualification

Postgraduate Master's

Study Method

Full time

Award Title

MSc

Course Length

12 months

Department

Life Sciences & Forensic Anthropology

Entry Requirements

Applicants should normally have, or expect to have, a first or upper second class BSc honours degree or an equivalent qualification in a scientific discipline in the field of biological, biochemical or biomedical sciences.

SCQF Level

11
