

Advanced Naval Architecture

University of Strathclyde

Content

Naval architecture is an ever-evolving industry with many specifications and unique challenges. In studying this course, you'll have the opportunity to become a competent naval architecture graduate which industry is looking for.

This course addresses an identified market need for a postgraduate qualification relevant to the naval architecture industry, and which develops skills and knowledge in technical and engineering aspects of that industry.

Designed for graduates in naval architecture, offshore engineering and related disciplines, you'll gain advanced knowledge of naval architecture, marine design and marine structures.

Start Date

September, January

Qualification

Postgraduate Master's

Study Method

Full time

Award Title

MSc

Course Length

12 months

Faculty

Faculty of Engineering

Department

Naval Architecture, Ocean and Marine Engineering

Entry Requirements

Normally a first-class or second-class honours degree (or international equivalent) in a relevant subject.

SCQF Level

11
