Content

You will study at two world renowned institutions: Chinese University of Petroleum Beijing (CUPB) and University of Dundee. Together you are taught to analyse and evaluate key concepts and practical applications in the energy sector with a focus on finance. Upon completion of the course you will gain two masters degrees, one from Chinese University of Petroleum Beijing and one from the University of Dundee. This will set you apart from others when you are job hunting.

In your first year, spent at CUPB, all classes are taught in English. Lecturers include faculty from world-leading universities and international experts from the energy sector.

In your second year, in Dundee, you will be taught within the University's Centre for Energy, Petroleum and Mineral Law Policy (CEPMLP).
