

## Cognitive Science

University of Edinburgh

### Venues

Central Campus

### Content

Cognitive Science is an exciting and interdisciplinary area spanning fields including computer science, linguistics, psychology, neuroscience, and philosophy. Edinburgh is a widely recognised leader in the area, and the School of Informatics has particular strengths in the computational study of higher cognition and reasoning, speech and language, and neuroscience; as well as related areas such as human-computer interaction, robotics, and computer vision.

The Cognitive Science degree offers courses in many of these areas, providing a strong grounding in the shared computational and mathematical foundations while also allowing students to pursue specialized courses in their particular interest areas. Many students also take advantage of relevant courses offered in the School of Philosophy, Psychology and Language Sciences or other parts of the University.

### Start Date

September

### Qualification

Postgraduate Master's

### Study Method

Part time (day)

### Award Title

MSc

### Course Length

2-3 years

### Faculty

College of Science and Engineering

### Department

Informatics

## Entry Requirements

A UK 2:1 honours degree, or its international equivalent, in informatics, artificial intelligence, cognitive science, computer science, electrical engineering, linguistics, mathematics, philosophy, physics or psychology, plus experience in computer programming.

Entry to this programme is competitive. A typical offer will normally require a UK first class honours degree.

You must have a sufficient mathematical and informatics background for your chosen area of study.

This should include experience of computer programming equivalent to an introductory programming course and completion of the equivalent of 60 credits of mathematics during your degree.

## SCQF Level

11
