

Introduction to Autodesk Inventor

New College Lanarkshire

Venues

Motherwell Campus

Content

This introductory course focuses on the use of Autodesk Inventor for the production of 3D digital models and 2D drawings. The course includes an introduction to the Autodesk Inventor interface and the key processes of using Inventor.

Learn how to create and manage part, assembly and drawing files, as well as document them in a way so that your designs proceed faster and more efficiently.

Start Date

October
