

## Sustainable Development

University of St Andrews

### Content

The MSc in Sustainable Development is aimed at students with a background in biology, economics, environmental sciences, geography, mathematics, politics or sociology who are interested in making a change to society, the environment and the economy.

Sustainable development is now widely regarded as the most promising framework within which the challenges of clean water and adequate sanitation, energy generation and supply, human health, food production and distribution, and the threats to biodiversity can be addressed. The MSc programme will enable you to develop the knowledge you need to understand and address sustainability issues from multiple perspectives.

You can exit after semester 1 with PgCert Sustainable Development.

You can exit after semester 2 with PgDip Sustainable Development.

### Start Date

September

### Qualification

Postgraduate Master's

### Study Method

Full time

### Award Title

MSc

### Course Length

1 year
