

Prosthetics and Orthotics

University of Strathclyde

Content

The MSc Prosthetics & Orthotics is one of the few programmes globally that offers a specific degree in prosthetics and orthotics. The National Centre for Prosthetics and Orthotics (NCPO), within the Department of Biomedical Engineering, has an international reputation for quality education within this field. Staff of the NCPO is involved in research and clinical practice both nationally and internationally.

The course aims to produce postgraduates with a first degree to be in Prosthetics & Orthotics, who are capable of developing careers in allied health professions and biomedical engineering (research, industrial and NHS).

You can exit after 21 months with a PgDip.
