

## Network Infrastructure with Cyber Security

Glasgow Clyde College

### Venues

Anniesland Campus  
Cardonald Campus  
Langside Campus

### Content

This computing course covers skills within computer networking, servers and cyber.

Modules include:

Networking technology; Firewall Essentials; Server Administration; Data Security;  
Ethical Hacking; Computing Forensics; Project Management; Graded Unit Project.

You will complete the HNC Computing in first year and then progress on to more specific skills in year 2.

In addition to this, you will also be offered the opportunity to study towards a Cisco Certified Network Associate (CCNA), Microsoft MCITP and CompTIA A+ qualifications. These qualifications are highly-desired by employers.

The College organises a series of networking competitions in preparation for World Skills and has specialist networking labs, with the latest Cisco equipment.

### Start Date

August

### Qualification

HND

### Study Method

Full time

### Course Length

2 years

### Department

Computing

### Entry Requirements

1 Higher plus 1 subject at National 5 from English, Maths, Computing Science or a science subject, or a relevant NQ or equivalent qualification. You may be required to attend an interview.
