

Health and Social Care (Level 5)

West College Scotland

Venues

Clydebank Campus
Greenock (Waterfront) Campus
Paisley Campus

Content

The aim of this course is to develop the knowledge, understanding and skills required to meet the needs of people using care services. This course gives you an understanding of what you will need to know to work successfully in a care practice setting.

You'll learn about:

The needs of individuals and an awareness of the care services that can meet these needs; The ways in which positive care practice is based on legislation, values, principles, knowledge and skills; The ways in which social influences can impact on people, and the relevance of this for care practice; Psychological theories and sociological concepts to care issues and scenarios.

You may have the opportunity for a volunteering or work placement as part of this course.

Start Date

August

Qualification

Other
