

Civil Engineering

City of Glasgow College

Venues

City Campus

Content

From the subjects you complete as part of the HNC programme, you may then be eligible to progress into 2nd year of a Civil Engineering HND or related degree course (direct entry into 2nd year at some universities based on an A in the graded unit) after which you can choose what area within civil engineering you wish to specialise in, from a range of specialisms such as structures, environmental, and transportation to name a few. Choosing your own path means you can do the job you enjoy, but it also allows employers to mold you from a good grounding knowledge of Civil Engineering into an area that is in demand from industry.

You will study:

Mathematics, Geotechnics, Site Surveying, Material testing, Substructures, CAD Contract and Project Management, Communication Skills, Health and Safety, Structural Mechanics and Analysis.

Start Date

August

Qualification

HNC

Study Method

Full time

Course Length

1 year

Department

Engineering, Energy and Gas

Entry Requirements

2 Highers including Maths or a science subject; or relevant national qualifications at SCQF Level 6. Interview.

SCQF Level

6

Progression Routes

2nd year of an HND course or to join a degree programme at University.

Address

City Campus
190 Cathedral Street
Glasgow
G4 0RF
