Riverside Campus

Content

This course allows you to study mechanical engineering to a professional standard. On completion of this course you will typically go to university, or move into industry as supervisors or technicians.

During your studies you'll have the use of the college's extensive engineering equipment, which includes a fully functioning mechanical workshop and computer labs running CAD design software, hydraulic pneumatic software and labs.

Some of the subjects you'll study in second year are: Applied Industrial Plant Maintenance; Plant Systems; Heat Transfer and Fluid Mechanics; Strength of Materials Advanced; Practical Engineering Workshop Skills.

Start Date

August

Qualification

HND

Study Method

Full time

Course Length

2 years

Department

Engineering, Energy and Gas

Entry Requirements

2 Highers including Maths and preferably Engineering Science or Physics; or NC Mechanical Engineering; or other relevant national qualifications at SCQF Level 6. Personal interview.

SCQF Level

8

SCQF Points

«SCQFPoints»

Progression Routes

Year 3 of BEng Renewable Energy Degree at Glasgow Caledonian University.
