

Industrial Automation Engineering with Robotics (Mechatronics)

City of Glasgow College

Venues

Riverside Campus

Content

The HNC Mechatronics Industrial Automation Engineering with Robotics is a course that brings together the main aspects of today's modern process and engineering control systems requirements. The course looks at and develops your understanding of automated and robotic systems through electrical, mechanical and electronic units showing how these individual engineering areas are interfaced together with computing software to form interactive and complex production systems.

Start Date

August

Qualification

HNC

Study Method

Full time

Course Length

1 year

Department

Engineering, Energy and Gas

Entry Requirements

2 Highers including Maths and Physics or Computing Science; or relevant national qualifications at SCQF Level 6. Interview.

SCQF Level

7

Progression Routes
