

Built Environment

New College Lanarkshire

Venues

Motherwell Campus

Content

The NC Built Environment course develops knowledge and skills for work in the construction industry in areas such as quantity surveying or as an architectural technician, and provides the grounding for technician-level posts and more advanced study.

The mainly theory based course is taught within a classroom environment with practical experience gained from workshops, field trips and site visits to companies such as Scotframe, Raeburn Brick and the Construction Scotland Innovation Centre (CSIC) where you can gain direct experience of the construction industry.

Start Date

August

Qualification

NC

Study Method

Full time

Course Length

36 weeks

Department

Construction

Entry Requirements
